Something New in Musical Instruments

This beautiful instrument is the invention of Prof. Petrowitsch Bissing and is being manufactured by the Orchestrino company of Topeka. It is adapted for use either as an individual instrument or in connection with the piano. Marvelous tone effects can be produced with it and it is destined to have an extensive sale. Among other delightful effects, it can be played to resemble a Mandolin Quartette accompanied by an Italian Harp. To be appreciated it should be heard. Parties wishing to hear it can do so calling at the Bissing Music Studio (Oxford

Stock Market Experiences Another Slump in Prices.

New York, March 18.—Excitement was revived in the stock market today by a break of disturbing proportions in the opening dealings. The outpouring of stocks was attributed mostly to a rush to realize at the buoyant recovery which had been achieved on Friday and Saturday from the extreme depression of Thursday.

Speculative sentiment was practically agreed that the recovery had been too violent. The wide declines registered in London before the market opened here shook the nerves of many holders who had fairly weathered the storm of last week. Large reductions of the short accounts resulting from the rush to cover on Saturday also deprived the market of an element of support and there was re-selling of stocks bought at the decline merely for the purpose of supporting the market. The conspicuous declines were Northern Pacific and Amaconda 34, points, Canadian Pacific 3 points, Great Northern preferred the property of the purpose of supporting the market of a points. Smelting 25, points, Canadian Pacific 3 points, Great Northern preferred the property of the purpose of supporting the market of the purpose of supporting the market. The conspicuous declines were Northern Pacific 3 points, Great Northern preferred the property of the purpose of supporting the market of the stocks from 1 to 2 points, Prices rebounded almost immediately 1 to 1½ points, and while the recoveries were not fully held, the excitement abated largely. In banking quarters the rapid recoveries of last Friday and Saturday were deprecated and there were instinations that repressive measures might be used to prevent other than a gradual orderly recovery. New York, March 18.-Excitement was ery.

The steel stocks were heavily sold by commission houses, reports crediting much of the selling to Pittsburg, Cleveland and Chicago.
